

Geely Radar RD6

Model: 2023

Long Range: 600 kms

EV
PROTEC

OVERVIEW:

The 2023 Radar RD6 is an all-new battery-electric dual-cab ute from China's Geely Group. Built from the ground up as an EV, the RD6 is less compromised than a conversion from an existing platform.

SPECIFICATION:

Manufacturer	Radarr (Geely)
Production	2022–present
Assembly	China
Designer	Peter Horbury
Body and chassis	
Class	Mid-size pickup truck
Body style	4-door Pickup truck
Powertrain	
Electric motor	Single- and dual-permanent magnet synchronous motors
Power output	<ul style="list-style-type: none">• 200 kW (272 PS; 268 hp)
Battery	66 kWh nickel-cobalt-manganese 60 kWh (LFP), 86 kWh (NMC) and 100 kWh (NMC)
Electric range	600 km (370 mi)
Plug-in charging	11 kW AC, 120 kW DC V2L: 6.6 kW

Dimensions	
Wheelbase	3,120 mm (122.8 in)
Length	5,260 mm (207.1 in)
Width	1,900 mm (74.8 in)
Height	1,830 mm (72.0 in)
Curb weight	1,590–1,660 kg (3,510–3,660 lb)
