SMART RAPID ROLL UP DOOR

MODEL: SRRD_3Mx3M

APPLICATION Garages | Commercial | Indoor | Outdoor | Warehouse

PRODUCT INFORMATION

High speed doors are an important part of an efficient workflow and can create a clean, productive and safe environment for you. Our high speed doors are perfect for high traffic industrial and commercial environments or where high environmental standards are required. They ensure fast and smooth access for people or vehicles, improving workflow and productivity. It also reduces door opening times, minimizing the exchange of air between the inside and outside, resulting in a high quality environment.

FEATURES

- Weatherproof PVC with full UV protection double layer with Rockwool 20mm thermal insulation in between.
- Lightweight and durable with 2 years warranty.
- Dimension: 3mx3m
- EV Protec High Performance high speed doors have very fast opening/closing speeds, providing a high degree of efficiency and a wide range of opening methods. You will save time and energy costs and improve the efficiency of your daily operations, logistics and transportation.
- Remote Operated , Sensor Operated (Optional) and Auto Level Settings are included.
