WALK BEHIND SCRUBBER

MODEL: SCBBR-24VDC-2440

APPLICATION

EV PROTEC Walk Behind Scrubber offers unparalleled efficiency and ease for maintaining clean floors across a variety of environments. With a remarkable theoretical cleaning efficiency of 3300 sqm/h, a cleaning width of 560 mm, and a squeegee width of 825 mm, this scrubber is designed to cover extensive areas quickly and effectively. The machine's 55-liter solution tank and 65-liter recovery tank further enhance its productivity by minimizing the need for frequent refills or emptying, allowing for uninterrupted cleaning sessions.

Key to this scrubber's performance is its adjustable ground brush, featuring a worn brush indicator. This innovative feature alerts users when it's time to replace the brush, ensuring optimal cleaning performance and enhancing the user experience. Coupled with a dedicated 400W suction motor, the scrubber effortlessly removes stains and debris, leaving floors spotless and dry in a single pass.

The enlarged solution and recovery tanks are a testament to the scrubber's design efficiency, supporting longer cleaning operations with less downtime. This, along with the variety of models available, allows customers to select the perfect scrubber to meet their specific cleaning needs and budgetary considerations.

Whether for commercial, industrial, or institutional use, our Walk Behind Scrubber stands out for its robust performance, ease of use, and adaptability. It's the ideal choice for those seeking a reliable, high-performance cleaning solution that can tackle large spaces with ease, improving cleanliness standards while saving time and effort.

PRODUCT INFORMATION

| DESCRIPTION | VALUE |
|-----------------------------|-----------------------|
| Battery capacity | 12/100*2 V/AH |
| Water suction motor | 400W |
| Brush motor | 550W |
| System voltage | 24V |
| Grade | 8% |
| Cleaning width | 560mm |
| Brush width | 560mm |
| Squeegee width | 825mm |
| Theoretical work efficiency | 3300m ² /h |
| Machine weight | 150kgs |
| Endurance time | 2-3h |
| Clear water capacity | 55L |
| Sewage capacity | 65L |
| Product size | 1300*825*1150mm |
| Warranty | 2 Years |
| Brand | EV Protec |
